ENTRY JUDGING

Winners are selected from the following categories to compete for the ultimate prize, **Building of the Year**:

- Church/Religious
- Commercial
- Education
- Government/Institutional
- Hospitality
- Manufacturing/Industrial
- Multifamily/Apartments
- Office
- Recreation
- Retail
- Transportation
- Warehouse/Distribution

A panel of industry professionals will judge the competition. Winning projects will be based on the quality of the photograph and how it presents the building.

COMPETITION RULES

ENTRY FORMS

Forms must be filled out completely and legibly. We ask that you double-check the information on each form, as this is the information we will use when printing awards, project profiles and magazine articles. You, as well as the building owner, must sign the photo release portion.

Please fill out all information as completely as possible. To reduce confusion it is helpful if you type or print clearly. This information is critical, as it may be used in the future for publicity and metal design/build awards in industry trade publications provided to you by Vulcraft/Verco Group.

If the form is not complete, we will not be able to use your project in promotional efforts.

PHOTOGRAPHS

Photographs can be submitted in hard copy prints, but high-resolution digital photos are preferred. Please submit one main photo of your project. Other photos, such as interior shots, shots from different sides of the building and photos of the building during the construction process are also appreciated. Professional photos are preferred but not required.

Please make sure there is nothing on the front of the photo, such as company or photographer name. If you hire a professional photographer to take your photos, please make sure you and Vulcraft/Verco Group own the rights to these photos.

Digital photos need to be in a high-resolution tiff or jpg format, 300 dpi and at least 8 x10 in size.

ELIGIBLE PROJECTS

Projects completed from July 2016 through July 2017 are eligible for competition. Projects must be submitted by January 31, 2018.

THE AWARDS

PLAQUES

All winning entries receive a NuHeights Design winner plaque, featuring a photograph of the project with the Entrant's, Architect's and project names and locations.

PROJECT PROMOTIONAL SHEET

For all qualifying entries we will develop and print 100 copies of a one-page project sheet, which you can use to promote your capabilities to existing and potential customers.

Please note that all information used will be copied directly from your entry form, thus it is important that all information on form is legible.

PHOTO GALLERY

Winners will be featured in a photo gallery on Vulcraft's website, www.vulcraft.com, allowing our customers and potential building owners to browse examples of Vulcraft's projects.

Press Releases and Publicity Press releases will be written for the winning projects and sent to local newspapers and trade publications. As always, our goal is to provide you with the most free coverage and publicity in all trade publications and newspapers. Projects with the most comprehensive information and photos may be used as entries in trade publications for competitions, articles and project highlights.

BONUS AWARD

Companies submitting 5 or more entries will receive a MasterCard or Visa gift card in the amount of \$200.

SUBMISSION DEADLINE
JANUARY 31, 2018

If you have any questions about the rules and regulations of the competition, please feel free to contact **Cara Griffin**. 334.688.2249 cara.griffin@americanbuildings.com
